

Getting Consent is an opportunity to:

- **Get to know someone!**
By talking to someone you might find common interests and make a new friend.
- **Share the gift of your skills!**
If you let someone know about your photo you gain chance to share the final work with them.
- **Feel confident because you have permission.**
It is an awesome relief to know you have done the right thing by asking first!
- **Prevent wronging a fellow burner**
Some folks don't want their photo taken or shared! Honor that wish!

Ask for Consent before taking photos!
