

What is Intentional Gifting?

Why waste a gift on someone who doesn't want it? Intentional gifting is a gift given with the receiver's full informed consent!

Intentional gifting involves...

- full, up-front disclosure of contents including common allergens, mind-altering substances, and dosage.
- the ability for the receiver to say “no, thank you” without fear or pressure.
- more enjoyment of your gift for everyone who chooses to partake!

Giving a gift with intention allows our community to connect and enjoy one another's unique skills, gifts, and talents.

It's About Consent!

immediacy [noun]
the act of direct and instant involvement, giving rise to a sense of urgency or excitement.
